

Environmental Impact Assessment

**Proposed Development at
Fung Lok Wai, Yuen Long
Lot 1457 R.P. in D.D. 123
(Volume 1)**

**Reference : R228-2.07
Client : Mutual Luck Investment Limited
Date : July 2008**

CH2M HILL Hong Kong Limited
In association with

**RPS
ADI Ltd.
Archaeological Assessments
MVA Hong Kong Limited**

TABLE OF CONTENTS**Volume 1**

1.	INTRODUCTION	1-1
1.1	Background	1-1
1.2	Historical Land Use of the Site	1-1
1.3	Ecological Importance of Fish Ponds	1-2
1.4	Project Objective	1-2
1.5	Objectives of the EIA Study	1-2
1.6	Scope of the EIA	1-3
1.7	Structure of the EIA	1-5
2.	PROJECT DESCRIPTION	2-7
2.1	The Proposed Development and the Environs	2-7
2.2	Construction of the Project	2-9
2.3	Potential Concurrent Projects that Could Lead to Cumulative Impacts	2-14
3.	CONSIDERATION OF ALTERNATIVES SCHEMES	3-1
3.1	Background	3-1
3.2	Identified constraints	3-1
3.3	Modifications of the development proposal to meet the identified constraints	3-1
3.4	Shifting of Residential Development Area	3-1
3.5	Alternative Route for Development Access	3-2
3.6	Establishment of a potential alternative egretty within the Wetland Nature Reserve	3-4
3.7	Consideration of Alternative Building Heights	3-4
3.8	Comparison of Development Options	3-5
3.9	The Preferred Development Option	3-8
4.	AIR QUALITY IMPACT	4-1
4.1	Introduction	4-1
4.2	Legislation and Guidelines	4-1
4.3	Ambient Air Quality	4-2
4.4	Construction Phase Impact	4-2
4.5	Operational Phase Impact	4-8
4.6	Conclusion	4-9
5.	NOISE IMPACT ASSESSMENT	5-1
5.1	Introduction	5-1
5.2	Background Information and Relevant Studies	5-1
5.3	Possible Cumulative Impact	5-1
5.4	Assessment Area	5-2
5.5	Noise Sensitive Receivers	5-2
5.6	Construction Phase Impact	5-3
5.7	Operational Phase Impact	5-16
5.8	Impacts Summary and Conclusion	5-18

6.	WATER QUALITY IMPACT ASSESSMENT	6-1
6.1	Introduction	6-1
6.2	Description of Existing Water Systems and Respective Catchments	6-1
6.3	Characterisation of Baseline Water & Sediment Quality	6-3
6.4	Existing and Planned Activities In Relation to Water Systems	6-12
6.5	Identification of Alteration of Water Systems Arising from the Project	6-14
6.6	Identification of Existing and Future Water & Sediment Pollution Sources	6-15
6.7	Identification of Water Sensitive Receivers	6-17
6.8	Water and Sediment Quality Assessment Criteria and Existing Policies	6-18
6.9	Water and Sediment Quality Impact Assessment	6-20
6.10	Recommendations of Mitigation Measures	6-22
6.11	Conclusion	6-25
7.	POTENTIAL PROBLEM OF BIOGAS	7-1
7.1	Introduction	7-1
7.2	Assessment Methodology	7-1
7.3	Field Sampling and Laboratory Analysis	7-1
7.4	Risk Assessment Criterion	7-2
7.5	Estimation of potential Gas Emissions	7-3
7.6	Evaluation of Significance of Potential Gas Emissions	7-6
7.7	Monitoring, Mitigation and Precautionary Measures	7-7
7.8	Impacts Summary and Conclusion	7-8
8.	SEWERAGE AND SEWAGE TREATMENT IMPLICATIONS	8-1
8.1	Introduction	8-1
8.2	Existing Sewage Disposal and Treatment Facilities	8-1
8.3	Planned Sewage Disposal and Treatment Facilities in the Area	8-2
8.4	Planned Population and Sewerage Flows Projections	8-2
8.5	Proposed Development, Sewerage Options and Projection	8-3
8.6	Adequacy of Existing and Planned Sewerage and Treatment Facilities to accept flows	8-3
8.7	New & Upgrading Works of Sewerage Systems Required for Either Options	8-4
8.8	Environmental Impacts of Sewerage Systems	8-5
8.9	Preliminary Design, Operation and Maintenance Requirements of the Proposed Sewerage System for Either Options	8-6
8.10	Conclusion	8-8
9.	WASTE MANAGEMENT	9-1
9.1	Introduction	9-1
9.2	Legislation and Guidelines	9-1
9.3	Analysis of Activities and Waste Generation	9-2
9.4	Proposal for Waste Management	9-7
9.5	Impacts Summary and Conclusion	9-8
10.	CULTURAL HERITAGE IMPACT ASSESSMENT	10-1
10.1	Introduction	10-1
10.2	Objectives of the Cultural Heritage Impact Assessment (CHIA)	10-1

10.3	CHIA Methodology	10-1
10.4	The Study Area	10-2
10.5	Historical Buildings and Structures Survey	10-2
10.6	Historical Landscape Features Survey	10-9
10.7	Summary of the CHIA Findings and Recommendations	10-11
10.8	References	10-12
11.	LANDSCAPE AND VISUAL IMPACT ASSESSMENT	11-1
11.1	Introduction	11-1
11.2	Standards and Legislation	11-1
11.3	Landscape and Visual Impact Assessment Methodology	11-2
11.4	Selection of the Preferred Option	11-7
11.5	Review of Planning and Development Control Framework	11-15
11.6	Review of Study on the Ecological Value of Fish Ponds in Deep Bay Area	11-20
11.7	Existing Landscape Context	11-21
11.8	Landscape Impact Assessment	11-22
11.9	Existing Visual Context and Visual Impacts	11-44
11.10	Cumulative Impacts	11-66
11.11	Mitigation Measures	11-66
11.12	Programme for Landscape Works	11-72
11.13	Operational (Residual) Landscape and Visual Impacts	11-86
11.14	Conclusion	11-89
12.	FISHERIES IMPACT ASSESSMENT	12-1
12.1	Introduction	12-1
12.2	Methods	12-2
12.3	Description of the Physical Environment	12-2
12.4	Baseline condition	12-8
12.5	Impact Identification and Assessment	12-10
12.6	Fisheries Mitigation / Compensation Measures	12-15
12.7	Monitoring and Audit Programme	12-15
12.8	Conclusion	12-16
12.9	References/ Bibliography	12-16
13.	ECOLOGICAL IMPACT ASSESSMENT	13-1
13.1	Introduction	13-1
13.2	Description of the Physical Environment	13-3
13.3	Literature Review	13-6
13.4	Review of Recognised Sites of Conservation Importance in the Vicinity of Fung Lok Wai	13-7
13.5	Field Survey Methodology	13-12
13.6	General Ecological Profile and Evaluation of Valued ecological Components	13-19
13.7	Identification of Potential Impacts	13-44
13.8	Evaluation of impacts	13-49
13.9	Mitigation Measures	13-69
13.10	Identification and evaluation of residual ecological impacts	13-86

13.11	Ecological Monitoring and Audit	13-87
13.12	References	13-88
14.	DRAFT HABITAT CREATION AND MANAGEMENT PLAN FOR THE WETLAND NATURE RESERVE	14-1
14.1	Study background and objectives	14-1
14.2	Mitigation objectives	14-10
14.3	Detailed design and construction methods	14-15
14.4	Management Strategy	14-26
14.5	Monitoring and action plans	14-35
14.6	HCMP Reporting and Review process	14-39
14.7	References	14-43
15.	THE LONG-TERM MANAGEMENT OF THE WETLAND NATURE RESERVE	15-1
15.1	Introduction	15-1
15.2	Overview of Wetland Nature Reserve Management Arrangements	15-1
15.3	Management of the Wetland Nature Reserve	15-2
15.4	Conclusions	15-3
16.	ENVIRONMENTAL MONITORING AND AUDIT (EM&A) REQUIREMENTS	16-1
16.1	Introduction	16-1
16.2	Objectives of Environmental Monitoring and Audit	16-1
16.3	Summary of Areas Requiring EM&A	16-1
16.4	Air Quality	16-1
16.5	Noise Monitoring	16-2
16.6	Water Quality	16-2
16.7	Waste Management	16-2
16.8	Ecology	16-3
16.9	Landscape and Visual	16-3
16.10	Cultural Heritage	16-3
16.11	Implementation Schedule of Environmental Mitigation Measures	16-3
17.	SUMMARY OF ENVIRONMENTAL OUTCOMES AND OVERALL CONCLUSION	17-1
17.1	Introduction	17-1
17.2	Key Environmental Issues	17-1
17.3	Air Quality Impact	17-1
17.4	Noise Impacts	17-2
17.5	Water Quality	17-3
17.6	Potential Problem of Biogas	17-4
17.7	Sewerage and Sewerage Treatment Implications	17-4
17.8	Waste Management	17-5
17.9	Ecological Impact Assessment	17-6
17.10	Fisheries Impact Assessment	17-8
17.11	Cultural Heritage Impact Assessment	17-8
17.12	Landscape and Visual Impact Assessment	17-9
17.13	Overall Conclusion	17-11

Volume 3

LIST OF APPENDICES

Appendix 1-1	Study Brief
Appendix 4-1	Calculation of Particulate Emission Rates for Fugitive Dust Impact Assessment
Appendix 4-2	Typical FDM Result File for Fugitive Dust Impact Assessment
Appendix 5-1	PME Equipment Inventory for Construction Noise Impact Assessment
Appendix 5-2	Typical Calculation Worksheet for Construction Noise Impact Assessment (Unmitigated Scenario)
Appendix 5-3	Silenced PME Equipment Inventory for Construction Noise Impact Assessment
Appendix 5-4	Typical Calculation Worksheet for Construction Noise Impact Assessment (With Silenced PME)
Appendix 5-5	Reduced SWL of the PME when noise barriers and machinery enclosures applied
Appendix 5-6	Typical Calculation Worksheet for Construction Noise Impact Assessment (Silenced PME with noise barriers and machinery enclosures)
Appendix 8-1	Sewerage Impact Assessment
Appendix 10-1	Historical buildings and Structures Catalogue
Appendix 11-1	Preliminary Tree Survey Report
Appendix 13-1	Ramsar Classification System for Wetlands
Appendix 13-2	Photographs of each habitat type defined within the Assessment Area for the proposed development at Fung Lok Wai.
Appendix 13-3	Vegetation survey results, site wide excluding route of original proposed access road.
Appendix 13-4	Aquatic invertebrates recorded at Fung Lok Wai during the required survey period.
Appendix 13-5	Odonata species recorded at Fung Lok Wai during the required survey period.
Appendix 13-6	Butterfly species recorded at Fung Lok Wai during the required survey period.
Appendix 13-7	Fish species recorded during surveys at Fung Lok Wai
Appendix 13-8	Amphibian species recorded during surveys at Fung Lok Wai
Appendix 13-9	Reptile species recorded during surveys at Fung Lok Wai
Appendix 13-10	Summary bird survey results from transects T1-5 and T7
Appendix 13-11	Summary bird survey results from transect T6
Appendix 13-12	Analysis of recent bird records within the Deep Bay area
Appendix 14-1	Generic Bund Designs
Appendix 14-2	Water Budget
Appendix 14-3	Planting Zones
Appendix 14-4	Specification for footpaths/ broad walks
Appendix 14-5	Indicative design of hides
Appendix 14-6	Details of Floating Platforms
Appendix 16-1	Implementation Schedule of Recommended Environmental Mitigation Measures

LIST OF ANNEX

Annex A Proposal for the Management of HKSAR WETLAND NATURE FOUNDATION
