P14	R(C)	Transitional Housing at 115 Castle Peak Road Tsing Lung Tau (tentative operation from 2023 to 2027)	R	3	p-TRA-01 to p-TRA-02
Notes:					
[1]	The assessment will only include NSRs which rely on opened windows for ventilation and within 300m assessment area.				
[2]	R-Residential, E-Educational Institutions, W-Place of Public Worship				
[3]	For areas with committed/ planned development with site formation works/ population intake before 2028, only committed/planned NSRs have been considered. For areas with committed/ planned developments with site formation works/ population intake between 2028 and 2033 or without any available development programme, both existing and committed/planned NSRs have been considered.				
[4]	NSR is blocked by terrain/ other developments / structures, etc., and hence NAP is not the representative worst and so not considered in the assessment.				
[5]	As confirmed by the operator/ project proponent, central air-conditioning is provided at the facade facing to the Project Road, and hence no NAP is considered.				
[6]	Based on maximum building height of 90mPD as stipulated in Town Planning Board RNTPC Paper No. 9/17.				
[7]	Since the land at P11 is under landsale programme and there was no available information on the maximum building height or maximum number of floor from relevant departments and operators during the preparation of this Report, 30 floors were assumed with reference to other residential development nearby, e.g. Aegean Coast.				
[8]	Based on maximum building height of 80mPD as stipulated in Tuen Mun OZP No. S/TM/36.				
[9]	For magazine site only.				
[10]	No noise sensitive use building within 300m from magazine site.				
[11]	The study on site formation and infrastructure works for Planned Public housing development at Nai Wai and Lam Tei North are being carried out during the preparation of this Study. Close liaison with the respective project proponent has been made and preliminary construction programme and building layout plan was obtained for the assessments.
