1	Black-banded Gossamerwing	Euphaea decorata	方帶幽蟌	-	Abundant	Widely distributed in all streams of Hong Kong.														
						streams of Florig Rong.														
										1							1			
2	Yellow Featherlegs	Copera marginipes	黄狹扇蟌	-	Abundant	Widely distributded in														
	renow reducinego	Copera marzimipes	54000000		Tibariaaria	lowland streams, ditches, and														
						weedy margins of pond throughout Hong Kong.	4			1							1			
3	Black Threadtail	Prodasineura autumnalis	烏齒原蟌	-	Abundant	Often perches on the plants near streams. Widely														
						distributed in streams														
						throughout Hong Kong.		1		2	7						2			
	Dingy Dusk-hawker	Gynacantha subinterrupta	細腰長尾蜓	Fellowes: LC	Common	Found in well-shaded														
	Dingy Dusk naviker	Зуписинии зиотистири	WHILE DEPENDE	Tenowes. Le	Continon	woodlands. Recorded in														
						Hong Kong Wetland Park, Lantau Island, Ping Shan	1													
						Chai, Sha Lo Tung and Tai														
						Mo Shan.														
4	Common Flangetail	Ictinogomphus pertinax	霸王葉春蜓	-	Common	Widely distributed in ponds and still water throughout														
						Hong Kong.														
										1	8									
5	Dancing Shadow-emerald	Idionyx victor	威異偽蜻	Fellowes: LC	Common	Found high in the forest														
	O O					canopy or over wooded														
						streams. Widely distributed in wooded streams							10							
						throughout Hong Kong.														
6	Asian Pintail	Acisoma panorpoides	錐腹蜻	-	Common	Widely distributed in marshes and weedy ponds														
						throughout Hong Kong.														
									1							1				
7	Blue Percher	Diplacodes trivialis	紋藍小蜻	-	Abundant	Widespread, especially in														
						late summer, when it can be found almost everywhere in														
						Hong Kong.				1										
			Apa H< 3-4-																	
8	Russet Percher	Neurothemis fulvia	網脈蜻	-	Common	Found in marshes, cultivated areas, streams, tanks and														
						irrigation feeders, sometimes														
						even found in nearly dried out marshy areas. Widely				1							1			
						distributed throughout Hong Kong.														
						Rolly.
