

Landfill Gas Monitoring Data for SENT (April 2022 - March 2024)

- NOTES:**
1. ALL MONITORING WORK WILL BE CARRIED OUT IN ACCORDANCE WITH THE ENVIRONMENTAL MONITORING PLAN.
 2. THIS DRAWING SHOULD BE READ IN CONJUNCTION WITH 86556-100 SERIES DRAWINGS.
 3. MONITORING WELL INSTALLATIONS TO BE PHASED WITH PROGRESS OF THE EXCAVATION AND COMPLETION OF THE WORKS.

Remarks:

Trigger levels are 1.0% for methane and 13.8% for carbon dioxide for down-gradient wells

Trigger levels are 1.0% for methane and 7.7% for carbon dioxide for up-gradient wells

* Probe cannot be opened, cannot take dip level measurement

** Probe bent, cannot take dip level measurement

*** No water in the probe

Remarks:

Trigger levels are 1.0% for methane and 13.8% for carbon dioxide for down-gradient wells

Trigger levels are 1.0% for methane and 7.7% for carbon dioxide for up-gradient wells

* Probe cannot be opened, cannot take dip level measurement

** Probe bent, cannot take dip level measurement

*** No water in the probe
