Identified Existing Noise Sensitive Uses at On Luen Village – Summary

**Identified Existing Noise Sensitive Uses at On Luen Village on Proposed TKO132 Layout**

In view of the proximity of the identified noise sensitive uses at TKO 132 from the proposed noise sources under the Project (marine traffic, fixed noise sources, construction noise, and road traffic noise), the representative noise assessment point for On Luen Village would be selected at GLL S11295, S11366a, S11124a and S11949.
